Summary of all Comments received:

During this workshop session, I learned:

- To keep at it!
- About other framework tools
- The steps to using the guide
- To perseverer with using the framework assessment and let it guide me to help my children be more successful

The most useful part of today’s training session for me was:

- The scavenger hunt was very helpful!
- Quick...???.with the paperwork
- To watch hands on and other teachers in video
- The guide suggesting activities
- Learn to be an intentional teacher

Here is what I plan to do in my classroom as a result of today’s training:

- Keep dreaming of that perfect classroom!
- The review
- Continue to observe and challenge the student's through play
- Use cycle of intentional teaching for benchmarks
- Try to find time to observe more and plan more activities
- As a result of today's training. I will use more activities geared toward the domains that each child may need and to be purposeful in my teaching.

I still have questions or concerns about:

- Will I really ever feel totally confident?
- Combining teaching with care of multiple age groups at one time

I would like to share with the trainer the following suggestions/comments:

- Thank you for everything...I enjoyed the workshops
- I really enjoyed all the workshops that I attended. I have learned a great deal and would really like to thank both Sandra Fowler and Beth Bye for all the wonderful learning experiences they have provided.
